

Behaviour Management

Course Description:

Behaviour Management Training is designed to look at presenting behaviours and understanding in what context these are occurring and why (Behaviour is a form of language). Strategies will centre on preventing behaviours from occurring, and on equipping staff with skills to empower individuals to manage their own behaviour through the use of motivational interviewing, and having a consistent understanding approach. Delegates will learn how to address disruptive behaviour safely and effectively, increasing the likelihood that individuals will choose more positive behaviours.

Course Duration:

1 Day
