

CITB – Site Supervisors’ Safety Training Scheme (SSSTS) - Refresher

Course Description:

This one-day SSSTS course will reinforce and update your knowledge and understanding of your legal responsibilities regarding health, safety, welfare and environmental issues since attending your last SSSTS course. This course is required in order to renew and update your CITB Site Supervisors Safety Training Scheme certificate.

This course is endorsed by the United Kingdom Contractors Group (UKCG) as the standard training for all supervisors working on UKCG sites.

Course Outline:

- How health and safety law is structured
- How the supervisory role fits in with the manager’s role in controlling the site safely
- Understanding the need for method statements
- Communication routes within site activity
- Behavioural safety
- Supervision of occupational health

Course Duration:

1 Day

Assessment:

Multiple Choice test paper

Certification:

CITB Site Safety Plus Certification

Qualification:

Must have attended and passed the CITB Site Supervisors’ Safety Training Scheme Course within the last 5 years. Evidence must be provided before attending the refresher course.
