

Fire Awareness Training Including Extinguisher Practice on Live Fire

Simulator

Course Description:

This fire awareness training course has been designed to give personnel the necessary information, knowledge and training for them to be competent in basic fire safety. During this theoretical and practical course you will safely experience the heat and flames from our simulator whilst we teach you to put out a real fire using a range of extinguishers.

Ultimately you will gain confidence in operating a range of extinguishers to appropriately extinguish different classes of fires. The Regulatory Reform Fire Safety Order requires all employed personnel to have adequate fire safety training periodically.

Course Outline:

- Overview of fire safety legislation
- Understand fire risk assessment – reducing the risk
- Describe basic fire prevention / Chemistry of fire / Classes of fire
- Know the common causes of fire / how fire spreads / Hazard Identification
- How to manage people with special needs in your building
- Recognise and respond to evacuation procedures
- Know the different types of fire-fighting equipment
- Practical exercises operating extinguishers on live fires

Course Duration:

1/2 day
